Invitation to have your organization's event promoted to Summit delegates

The 4th SelectUSA Investment Summit is just around the corner. Delegation members from Japan are looking forward to find the practical tools, information, and connections they need to move investments forward.

Are you looking to engage more with delegation members? Consider the following:

- host a networking function for the delegates from Japan and/or other Northeast Asian markets
- host a group of prospective investors before or after the Summit for a “spin off” to showcase your region

All programs will be posted on the SelectUSA Events Calendar

Please also recommend speakers who can share their knowledge on investment initiatives

We look forward to posting your event as soon as possible!
